Looking for Immediate EECS 320 Tutor

The Engineering Learning Center (ELC) is looking to hire a tutor for EECS 320 with a time commitment of 3-4 hours per week. You would be hired through the Engineering Learning Center and paid $15/hour. If you're interested, please contact Darryl Koch at koch@umich.edu.

Inside the Music & Video Tech Industry
[Univ of Michigan ARTSADM 433/533 Sec 001]

What would you do if you worked at Bose, Spotify, Dolby, Sonos, Adobe, or Avid? Are you interested in careers in the digital media, entertainment technology, and music tech industry?

Enroll to our 7-week experiential mini-course, before spots are gone!

Inside the Music & Video Technology Industry

ARTSADM 433/533 Sec 001
1 credit, Thurs 6:30-8:00 PM
Jan 4 - Feb 15 (7 weeks)
Jay LeBeouf

Inside the Music & Video Technology Industry explores how leading creative technology companies, such as Pandora, Spotify, Avid, Adobe, JBL, Sonos, and Bose bring products from idea to market. Be mentored by top industry executives and learn how industry really works. We examine best practices, roles, day-to-day responsibilities, desired skill sets, and department/team function. This highly-experiential 7 week mini-course is intended for all students considering full-time positions or internships in media technology industry. No prior arts or engineering background required. Class time includes discussion, real-world projects, and meetings with industry executives.

Career Directions Q&A Panel

Career Directions Q&A Panel
Monday, November 20th
6:30-8pm
1311 EECS

Panelists from a diverse set of career paths will talk about the paths their careers took after their engineering degrees, and there will be ample opportunity for questions from the audience. The career paths to be showcased include academia, sales, marketing, entrepreneurship, consulting, and patent law.

Panelists:
- Joanna Millunchick (Associate Dean for Undergraduate Education, Professor)
- Y. Andy Boucher (Sales, Marketing, and Entrepreneurship)
- Wyatt Istvan-Mitchell (Patent Law)
- Max Shlein (Professor, Entrepreneur)
Now Hiring CoE Tour Leaders for Winter 2018!

The Office of Recruitment & Admissions is now hiring Winter Engineering Tour Leaders! Engineering Tour Leaders will help facilitate the North Campus Engineering Tour and Campus Day. Leaders will conduct tours and interact with the families of prospective Engineering students.

If you're interested, go ahead and fill out this link to complete the application. Interviews will be held after the Thanksgiving Recess. Contact Kara Leslie at karale@umich.edu with any questions or concerns.

Michigan Applied Robotics Group – Team Introductions
Tuesday, November 28th
6:00 pm to 8:00 pm
1571 GGBL

It may be getting late in the semester, but University of Michigan Robotics Teams are still hard at work and looking for recruits. If you are looking for a place to apply your heard-learned class skills or are just curious to see what these project teams have to offer, feel free to join. There will be free food!

If you are already on one of these project teams, please join as well. Each team will be discussing problems they are facing in an effort to pool knowledge. If you need help on something your team is doing, it would be a great place to get it. (And don’t forget the free food!)

If you are interested in attending, please RSVP here so that we can gauge pizza.

Job Opportunity in Virtual Reality - January 2018

Gwydion Inc., a Virtual Reality software development company, is looking for a computer science major with experience in web development, specifically NodeJS, ReactJS, and server design to start full time in January 2018. Please reach out to jobs@gwydion.co if you are interested with your resume attached.
